We have proved that with our knowledge edge, working with good ethical standards and professionalism we can be financially well off. I want to bring that experience to a larger scale.
- a. It's crucial to me to boost the credibility of our profession through better governance, accountability and attracting top student talent to ICAI without compromising values.

2. What I Plan to Do:

- a. I wish to identify areas where we as accounts managers or practitioners can add value and improve compliance, then provide the knowledge and training needed, from basic to advanced levels. [Presently looking at ensuring the service in consultancy to all SMPs. Focus on Co-operative Sector reforms at State level.
- b. Empowering students & members and instilling the right attitudes and values are key parts of my vision for professional development.
- c. I'm committed to launching special programs to enhance undergraduates' and graduates' skills, which will also help elevate the profession's reputation.
- d. I will dig deep into why student enrolment is declining and suggest bold steps to fix it while maintaining our high standards.

3. Here's the Plan:

- a. Together with a team of passionate team of contributors, we'll craft workshops and certification programs tailored to meet everyone's needs, from beginners to seasoned pros.
- b. We will weave attitude and value education into every aspect of our professional development initiatives.
- c. We'll set up a task force to tackle the issues tarnishing our profession's image and driving students away.
- d. We will focus on making ourselves transparent and accountable to all stakeholders in our endeavors.

I'm fired up about the possibility of making a real difference in the ICAI, and I'd love to have your support. Let's work together to build a stronger, more vibrant future for our profession.
