

Webinar on Changes in GST applicable from Jan 1st, 2022

Coverage in a Nutshell

“Change is the only constant thing”. This applies more aptly to the Goods and Services Tax law. Series of changes have been ushered by the CBIC that are issued in November and Dec 2021 in order to give effect to various changes in the Act along with rules. Further, certain clarifications have been issued having direct implication on the tax positions. It is thus important for all of us to understand these changes from a legal and practical standpoint along with a system mechanism that needs to be put in place for its effective implementation. Therefore, we are conducting this webinar for our clients and the fellow professionals to dwell upon these changes and its impact.

Registration Details

Material: Training material would be shared with the registered participants.

Registration: Kindly click the below link for registration.
