

How to handle GST Departmental Audits - Legal framework, Preparation & Approach

Coverage in a Nutshell

Having completed a little more than 3 years and the closure of 3 consecutive GST audits by the professionals. Its now time to face the department under the guise of the statutory provisions requiring audit by the department u/s 65 of the CGST Act, 2017. It is important for the industry, trade and professionals to understand the legal framework in this regard including what are the powers of department and how the audits would be conducted in the GST regime. Also, we are required to equip ourselves with the immediate preparation requirement and the approach to be adopted to ensure smooth completion of this statutory exercise.

In order to understand the above concepts and to understand how to tackle them, we are conducting a webinar on the topic on *"How to Handle Departmental Audit - Legal framework, Preparation and Approach"*

Programme Schedule

Date

April 16, 2021
(Friday)
